

TO SIGNAL BUS AFTER DARK

**Move handle up and down
to signal approaching bus.**

**Reflection visible
up to a quarter
mile away**

Safe and Easy

**Works even
if you can't
see the flashing**

We are investing in your *Safety!*

We have installed Bus Stoppers to improve passenger safety at the bus stop and eliminate pass-bys in the dark.

**No need to use your
flashlight or cell phone**

**No need to wave
your arms**

**No need to jump
in front of the bus**

Be Seen! Use the

Bus Stopper
